WELCOME

From the Maxillofacial Surgery Unit in Hospital Clínic we would like to welcome you to this 2nd edition of this cranio-maxillo-facial course over frozen cadaver preparations.

With this course we aim to teach the theoretical basis and practical skills to perform the different surgical approaches to the facial skeleton and the osteotomies that can be performed over the lower, mid and upper third of the face.

COURSE DESCRIPTION

This theoretical & practical course will illustrate and teach the steps of every dissection to perform over the preparations, through videos and diagrams of the surgical techniques.

Then every participant will perform the techniques over the preparation using the specific material that will be available such as, reciprocating saws, piezosurgery, specific surgical instruments and osteosynthesis plates & screws.

With this course we would like to offer the opportunity to gain anatomical knowledge and improve surgical skill for those interested in cranio-maxillo-facial surgery.

Hoping to see you soon.

Maxillofacial Surgery Unit
Department of Plastic and Maxillofacial Surgery
Hospital Clinic
Barcelona
Every two participants will share one head preparation, and will help each other during the practical dissections and when performing the osteotomies.

Specific maxillofacial surgery instruments to perform the surgical approaches are provided.

Specific instruments such as surgical saw and ultrasonic system, for the osteotomies are provided.

Support Faculty during the dissection will be available whenever needed.

iBook available in the iTunes Store

SURGICAL APPROACHES TO THE FACIAL
SKELETON IN CRANIO MAXILLOFACIAL SURGERY
17th-18th July · 2015 · Barcelona, Spain

17th July. Friday

08:00-08:15
Welcome address faculty. Course Objectives
08:30-09:15
Surgical approaches to the mandible & mandibular osteotomies.
TMJ & Condyle open approach
SSO
Hinds
Genioplasty. Wing osteotomy
Letterman osteotomy. Approach to the lateral pharyngeal space
09:15-11:30
Surgery over the cadaver
SSO
Hinds
Genioplasty
Letterman osteotomy
TMJ & Condyle approach
11:30
Coffee break
12:00-12:45
Surgical Approaches to the maxilla & maxilla osteotomies
Midface Degloving
Le Fort I. Maxillary bipartition
Le Fort I Segmentation. Le Fort II
Premaxilla osteotomy for cleft patient
12:45-14:30
Surgery over the cadaver
Maxilla approach
Le Fort I & Segmented Le Fort
14:30-16:00
Lunch
16:00-17:00
Rhinoplasty Approaches. Surgical approaches to the orbit
Transconjuntival, Transcaruncular & Subciliary approaches
17:00-20:00
Surgery over the cadaver
Open Rhinoplasty approach and nasal bones osteotomies
Surgical approaches to the orbit
21:30
Dinner

18th July. Saturday

09:30-11:00
Approach to the Calvarial Vault. Osteotomies in Craniofacial Surgery
Le Fort III
Transbasal approach and modifications
Malar osteotomies
11:00-13:30
Surgery over the cadaver
Bicoronal approach
Le Fort III
Transbasal approach & fronto-orbital bar
Malar osteotomy
EVALUATION GUIDE

All our courses apply an evaluation process, a written questionnaire. This helps us to ensure we met your training needs.
