

# 2015 Liverpool Practical Microvascular Course

.....  
*Head & Neck Reconstructive Surgery is a complex and highly technically challenging field central to effective management of oncologic and other defects. This is the only UK practical and theoretical microvascular course designed solely for, led by, and taught by head & neck surgeons.*

# 2015 Liverpool Practical Microvascular Course

.....  
This practical microvascular training course, now in its 20<sup>th</sup> year, takes place in a new purpose-built facility. It integrates over 30 hours of hands-on surgery using a live femoral and epigastric vessel model with 15 hours of tutorials and lectures. We have secured generous sponsorship from Zeiss & Ethicon in order to reduce registration fees, and to maintain below similar courses.

March 16<sup>th</sup> – 20<sup>th</sup> 2015

Early-bird rate: £1300 (£1500 after Feb 1<sup>st</sup> 2015)

Strictly limited to 12 delegates

Course Directors: Professors James Brown & Richard Shaw, OMFS, Aintree University Hospital & University of Liverpool
