

## Intermediate Skills in Plastic Surgery: Facial Soft Tissue Reconstruction

18 - 19 November 2013

The aim of this course is to develop operative skills in the selection, design and execution of a number of useful, common surgical flaps for reconstruction following excision of skin lesions. The basic principles will be practiced on mannequins with pig skin, and participants will then progress to more complicated procedures using unembalmed cadaveric heads.

### Practical sessions include:

- Cheek and craniofacial
- Forehead and temple
- Scalp
- Eyelid
- Lip and chin

### Who should attend?

ST3-6

### Course Fee

£995

### Course Director

#### Mr Ken Graham

Consultant Plastic Surgeon  
Whiston Hospital, Merseyside  
RCS Education tutor in Plastic Surgery

#### Miss Fiona Hogg

Consultant Plastic Surgeon  
Ninewells Hospital, Dundee

### Key learning outcomes:

- Describe the blood supply of the skin.
- Demonstrate the principles of flap design.
- Plan and perform a selection of local flaps and z-plasties.
- Outline the principles of cosmetic units and sub-units.
