Course program

7th AOCMF Course—Advances in Flap Raising (with Human Anatomical Specimens)

October 14—October 16, 2015   Vienna, Austria
Mission

Our mission is to continuously set standards in postgraduate medical education and to foster the sharing of medically guided expertise in a worldwide network of healthcare professionals to improve patient care in trauma or disorders of the musculoskeletal system.

The AO principles of fracture management

1. Fracture reduction and fixation to restore anatomical relationships.
2. Fracture fixation providing absolute or relative stability, as required by the “personality” of the fracture, the patient, and the injury.
3. Preservation of the blood supply to soft tissues and bone by gentle reduction techniques and careful handling.
4. Early and safe mobilization and rehabilitation of the injured part and the patient as a whole.
Welcome

On behalf of AOCMF and your local and international faculty, I would like to welcome you to this AOCMF course.

AOCMF is a worldwide multi-specialty community that serves as the voice and professional resource for craniomaxillofacial trauma and reconstruction. Our organization creates a forum for specialists who have common interests and enthusiasm in this field. It is our goal to encourage and inspire younger surgeons, such as residents, fellows, and early practitioners to pursue fulfilling careers in our field.

Education has always been a major pillar in AOCMF. Currently, more than 4,500 surgeons participate in over 100 AOCMF courses held worldwide per year. AOCMF Education is committed to remaining in the forefront of education and new developments as we strive to improve your educational experience with us.

We hope that your experience with us over the next few days will result in the acquisition of new knowledge, skills and understanding, which will translate into an improvement in the care that you are able to give your patients.

We also hope that, after attending this course, you will wish to develop a longer term relationship with AOCMF and become a member of our community. Make this organization yours by bringing in your opinions and ideas. Enjoy the camaraderie of our network and help us maintain and expand the preeminent position that AOCMF enjoys worldwide.

Yours sincerely,

Warren Schubert
Chairman AOCMF International
Goal of the course

This event is designed to present the most commonly applied flaps for head and neck reconstructive surgery and to practice related knowledge on current flap-raising techniques.

Course objectives

After the course, participants should be able to:

– know how to perform the most commonly applied flaps for head and neck reconstructive surgery
– have enhanced their surgical skills in harvesting a variety of flaps for head and neck reconstructive surgery
– have an improved understanding of complex anatomical structures

Target participants

– Maxillofacial surgeons
– Plastic and reconstructive surgeons
– Surgeons of related disciplines

Course description

This three-day intensive course is laboratory training on fresh frozen human specimens. Each session will include a step by step introduction followed by an on-site demonstration.
Course Director

**Christos Perisanidis**  
Medical University of Vienna  
Oral and Maxillofacial Surgery  
Vienna, Austria

Course Chairmen

**Emeka Nkenke**  
Medical University of Vienna  
Department of Oral and Maxillofacial Surgery  
Vienna, Austria

**Rolf Ewers**  
University Hospital for Cranio-maxillofacial and Oral Surgery  
Vienna, Austria

Faculty International

**Neal Futran**, University of Washington School of Medicine, Department of Otolaryngology, Seattle, USA

Faculty Regional

**Goetz Giessler**, Clinic for Plastic-reconstructive, Aesthetic and Hand Surgery, Kassel, Germany

**Guenter Lauer**, University Hospital Carl Gustav Carus, Department of Oral and Maxillofacial Surgery, Dresden, Germany

**Siegmar Reinert**, University Hospital Tuebingen, Department of Oral and Maxillofacial Surgery, Tuebingen, Germany

**Frank Wilde**, Military Hospital Ulm, Department of Oral and Maxillofacial Surgery, Ulm, Germany

Faculty National

**Alexander Gaggl**, Paracelsus Medical University Salzburg, Oral and Maxillofacial Surgery, Salzburg, Austria

**Paul Wolfgang Poeschl**, Klinikum Wels-Grieskirchen, Department of Cranio-Maxillofacial and Oral Surgery, Wels, Austria

**Michael Pretterklieber**, Medical University of Vienna, Department of Anatomy, Vienna, Austria

**Gert Santler**, Klinikum Klagenfurt am Woerthersee, Oral and Maxillofacial Surgery, Klagenfurt, Austria

Course information

**Accreditation info**
An application has been made to the UEMS-EACCME® for CME accreditation of this event

**Evaluation guidelines**
All AOCMF courses apply the same evaluation process, either ARS (audience response system) or paper and pencil questionnaires. This will help AOCMF to ensure that we continue to meet your training needs. In some regions, CME accreditation is dependent on the participant’s evaluation results.

**Intellectual property**
Course materials, presentations, and case studies are the intellectual property of the course faculty. All rights are reserved.

**Recording, photographing, or copying of lectures, practical exercises, case discussions, or any course materials is strictly forbidden. Participants violating intellectual property will be dismissed.**

The AO Foundation reserves the right to film, photograph, and audio record during their events. Participants must understand that in this context they may appear in these recorded materials. The AO Foundation assumes participants agree that these recorded materials may be used for AO marketing and other purposes, and made available to the public.

**Security**
Security check at the entrance of the building. Wearing of a name tag is compulsory during lectures, workshops, and group discussions.

**No insurance**
The course organization does not take out insurance to cover any individual against accidents, thefts or other risks.

**Mobile phone use**
Mobile phone use is not allowed in the lecture halls and in other rooms during educational activities. Please be considerate of others by turning off your mobile phone.

**Transportation**
Not provided for participants

Improving patient care worldwide

AOCMF membership

Participation in the AOCMF community guarantees life-long learning opportunities and continuous professional development

AOCMF Videos
Make use of our multimedia teaching and learning materials

Online access to scientific journals
Stay up to date on the latest practices and advancements in the field of craniomaxillofacial surgery

Online case discussions
Participate in the interactive exchange of professional opinions

Precondition
The prerequisite for becoming a part of the AOCMF membership community is attendance at one certified AOCMF education event

Providing a common ground for excellence in craniomaxillofacial surgery

AOCMF Journal
Craniomaxillofacial Trauma and Reconstruction publishes primary and review articles covering all aspects of surgery of the head, face, and jaw. Available free of charge to all AOCMF members

AO Publications
Take advantage of special discounts and free offers for AOCMF members

AO Surgery Reference
See surgical procedures explained step by step

AOCMF portal
Your window to the AO world Witness the global reach of our CMF community
