

BSSO2025*10 – 2 - 4 July 2025

PHIL – Haarlem – The Netherlands

We proudly present the 10th edition of the **Biennial Symposium on Surgical Orthodontics (BSSO)**. It is organized to present an opportunity for both **orthodontists and maxillofacial surgeons** to gather and share clinical and scientific information on diagnosis and treatment planning in the field of surgical orthodontics.

BSSO is renowned for delivering up-to-date information, state of the art communication on orthodontics and surgery, excellent and concise lecturing, provocative discussions in an excellent and warm atmosphere. Everyone who is interested in preparing, planning, execution and management of surgical orthodontics and orthognathic surgery is cordially invited to the historic center of beautiful Haarlem, The Netherlands. The conference venue PHIL is located on a 20 minutes' drive from Schiphol airport.

The program of the BSSO2025*10 symposium will focus on hot topics within surgical orthodontics and orthognathic surgery. The faculty is a mix of eminent speakers in the field, several of whom have already had successful experiences in lecturing at BSSO, and top speakers from different continents.
