

# AO CMF Course— Management of Facial Trauma

October 16–17, 2025

Leeds, United Kingdom

## Course description

Register now for our world-class course, designed to equip you with fundamental knowledge, principles, and skills essential for treating craniomaxillofacial fractures and their associated complications. This comprehensive program covers mid and upper facial trauma, mandibular trauma, and specialized topics. Participants will engage in hands-on practical exercises, online learning modules, small group discussions, and informative lectures.

## Target participants

Surgeons, residents, and fellows who are involved in the treatment of facial trauma.

## Course modules

### Mid and upper facial trauma

- Surgical approaches
- Reestablishing pre-traumatic occlusion
- Maxillary, Zygomatic and Orbital wall, NOE and Frontal sinus fractures

### Mandibular trauma

- Surgical approaches
- Mandibular fractures: load sharing and load bearing

### Additional topics

- Pediatric fractures and sequencing panfacial fractures
- Complications

## Information

Venue: Weetwood Hall Estate, Leeds, UK  
Course fee: Standard ticket CHF CHF 850  
Member ticket CHF 807.50

We thank our major industry partner Johnson & Johnson MedTech for providing an unrestricted educational grant and in-kind support for this event.

## Learning objectives

- Diagnose facial injury through history, physical examination, and investigations
- Formulate a treatment plan (operative and nonoperative)
- Perform the specific treatment for facial trauma
- Modify the treatment plan when necessary
- Manage patient follow-up and rehabilitation
- Identify and manage complications
